Dear Pete.

I want to thank you personally for your fine work as a member of the GS-15 Evaluation Board which convened from 15 May to 16 June 1972. I know that this work has been particularly demanding. Your full-time participation and diligent application of your professional experience have been decisive factors in the successful accomplishment of the Board's missions. I know that your recommendations will provide a reliable base for the Clandestine Service Career Service Board and myself in arriving at a final promotion list.

Your wise and energetic participation in the evaluation process has helped to strengthen the Clandestine Service by objectively identifying those officers whose performance, qualifications and potential mark them as especially fitted for senior positions of leadership.

MEMORANDUM FOR: Secretary, CSCS Board

SUBJECT:

Recommendation for Promotion -

Robert P. Wheeler

T. As one of the final acts in my CIA career I wantto bring to your attention and add my strong concurrence
and recommendation to two (2) recorded recommendations for
the promotion of Robert P. Wheeler to the grade GS-17. I
find it hard to imagine a more persuasive recommendation
for this action than that forwarded by my predecessor in
June 1969 (Attached). I can imagine Mr. Mitchell's feeling
when he prepared the second recommendation in February 1970
(Attached). And yet, I find in February 1971 there has still
been no action. In the year that has passed this promotion
has become even more deserved, for despite the natural disappointment accompanying such a continuing lack of recognition, there has been no diminution of enthusiasm, no lowering
of standards, and the CS is clearly better managed because
of his continuing efforts. Were these two previous recommendations not so clear cut and descriptive, I would conclude
that those in control simply do not know what this officer
does and has done. Knowing what he does and how he does it
should not continue to be unrewarded and, hence, I add my
strongest recommendation for early and favorable action.

2. This officer has performed in a most outstanding manner, as testified in his fitness reports by my predecessor, and certainly during my tenure as Chief, MPS for the past 12 months.

MEMORANDUM FOR: Secretary, Claudestine Service Career Service Beard

SUBJECT:

Rocommendation for the Proportion of Mr. Robert P. Sheeler to GS-17

- 1. It is recommended that Mr. Robert P. Wheeler be promoted to GS-17.
- 2. Br. Wheeler obtained a B.A. degree in Political Science from the University of California, Berkelmy, in 1942 and a H.A. in International Relations from George Washington University, Eastington, D.C., in 1946. He entered the U.S. Navy in 1942 and after a concerted course in Japanese served the Navy until 1946 as an Intelligence Specialist, Japanese Lenguage Officer, and the War Department, Still as an Intelligence Specialist in Tokyo, from 1946 to 1952. In September 1952 he joined the Agency for duty in Tokyo; returned to Headquarters in June 1956 where he served until 1952; left for service in Japan from June 1959 to October 1964; served under nea-official cover in Henclula from August 1964 to August 1966; served at Headquarters with the Office of Planning, Programming and Budgeting (CEPB) from August 1966 until January 1968, and with MPS from the latter date to the present:
- 3. During his career with the Agency he has been a field Operations Officer, Liaison Officer to eversess U.S. agencies and a foreign intelligence service, a supervisor, Deputy Chief of Station (Tokyo), Chief FI for a divinion (FE), Chief of Pass (Noneliku), Program Analyst (CPPB), and Program Analyst and Group Chief (NFS).
- 4. In his present position as Chief of Programs Group in the Missions and Programs Staff, Mr. Whosler is responsible for listson between the CS and the CPPS on the PPS System and non-budgetary matters; installing the EPB System

within the CS; advising and assisting CS components in the proparation of Operating Directives and the program pertions of the annual responses to the Program Call; chairing the Program Review Panel; preparing and/or coordinating special studies and surveys on operational programs; coordinating and preparing the annual DDP pricing of the PCI on CS previous and programs; and, as required, advising CS components on the requirements of PPBS that need to be addressed in CS documents requiring DCI or Executive Director-Completeliar action.

- 5. In his previous assignment hr. Wheeler was detailed to OPPB to give that office, in the preparation of Agency programs for submission to the Bureau of the Budget, a better understanding of classestine collection and covert action, to help that office better review and integrate CS programs in Agency programs, and to give him a broad view of the PPB System and Agency management in both of which he had shown considerable interest. His perfermance in that office was rated "Strong," and it was on that perfermance and on his genuine enthusiasm and interest in management generally that his services were sought for HPS.
- In the performence of his duties no Chief, MP3/PRG he made inmediate use of his long experience in and knowlodge of CS operations, the experience and incolodge gained in CRPD, his formal education in the PRD System, and a strong belief in and desire to put to work within the CS correin concepts of that system for göneral and appoilte management improvement. Given the idioxyneracies of the CS, he recognized early that in order to make the PPB system work offectively knowledge of the "why" and "how" of that system must be passessed at every decision-making level. With limitless energy and enthusiasm he got about "preaching the gampel" from division chief to case officer. Whomover and wherever a formal group to assembled and management to a topic for discussion, the Office of Training can count on him to drop everything and hold forth on the audicet, by it the Senior Hanagement and Planning Course (whether for supergrades or believ), Station Chief Conferences, the CS Benior Seminar (how in mession) and the like. Acting as the DDP/Tho's right arm to encourage attendance at the Sector Management and Planning Course he has cruseded with division and staff chiefs for the attendance of certain of

their key employees. To date upwards of 100 from the CS have attended that course with many more to follow. With some of those same senior officials he has argued the bonofits ultimately to accrue to their components from the tomporary assignment of a senior key official for a year or two to MPS and/or OPPA and eventual return to the mother component. One such arrangement, with duty in OPPB, has just been completed. His tactful, understanding, friendly, businesslike, professional and competent handling of the chairmanship of the PRP and the roviews of the Operating Directive and country activities conducted by that Panel loaves little to be desired. Regarding the PPB Byston, he reads everything, pro and con, that comes to his attention, and he had court a frir number of his own pecket to build a library on the publect. He has parsuaded potential converts to the system to read those books, rogazines, periodicals and pamphiots to the end that most of that library to on constant loan. His insatiable appointe for news on current an well as historical domestic and foreign matters, his excellent sense of huser, and his genuiné friendliness are invaluable assets in his present annignment incomed as they have given him such a wide range of acquaintances, in and out of the CS, as to open wide the deer for discussion on BPS responsibilities that ero anything but soxy. He is so highly regarded by his contacts in the divisions and staffa of the CS and in OPPD that his advice and guidance are constantly sought. He gives of his time and energy villingly, regardless of the grade of the individual or the magnitude of the problem. His onthusiasm is catching and he sets an excellent example for subordinates, equals and superiors as well.

7. In view of the above, Mr. Wheeler, a breadgauged, fant seving, compotent, dedicated, sincere and friendly individual who had not yet reached his full potential, whose goal is to make the Clandestine Nervice the lest canaged directorate in CIA, and who will noon have served five years in grade, is strongly recommended for precetion to GS-17.

1. It is recommended that Mr. Robert P. Wheeler be promoted to the grade GS-17.

- 2. By memorandum dated 5 June 1969 the undersigned recommended Mr. Wheeler for promotion. In that memorandum was set out the career of Mr. Wheeler from the date he completed college (1942) until June 1969, and was described his wartime (1942-1946), immediate post-war (1946-1952) and Agency (1952-to June 1969) experience, all in the field of intelligence. Since it is the opinion of the undersigned that the Board should have the benefit of all the facts stated in that memorandum and since there is no change in the contents thereof, I hereby incorporate by reference the memorandum of 5 June 1969, make it part hereof and attach it hereto as a significant part of the present memorandum.
- 3. The time passed since 5 June 1969 has served only to contirm my conviction in Mr. Wheeler's true value to the CS. The has continued the strong leadership of the Program Review Panel and his subordinates. His unbounded energy and incessant championing of the applicable principles of the PPB System have resulted in office chiefs or other most senior officials appearing before the last Program Review Panel apparently interested and better prepared than ever before. His obvious sincerity and friendly and intelligent approach to the job have convinced many of the need for the better management of their affairs. This is no mean accomplishment in a world where the normal human resents

J. S. I.

even constructive criticism. Mr. Wheeler is so dedicated to making the CS the best managed component in the Agency that he continues to spend his own earnings on books and periodicals on the subject of management and to encourage interested parties to read them and pass them on to others.

- 4. The undersigned is aware that for the past six (6) months a private interest has dangled an impressive carrot in front of Mr. Wheeler in an attempt to induce him to retire and represent overseas the interests of that private concern. This fact is not to be considered by the Board as a sword of Damocles. It is simply to bring to the Board's attention that if a promotion at this time should serve to dissuade Mr. Wheeler from accepting the proficred job, the Board would have been instrumental in retaining for the CS in the management field one of the most dedicated, friendly, readily accepted, knowledgeable, industrious and qualified officers in the Agency.
- 5. In view of paragraph 3 above, the contents of the attachment hereto, and his potential for further growth, Mr. Wheeler is strongly recommended for promotion to Grade GS-17.

: Retiroment Planning

1. In order to assist employees in planning for their oventual retirement, it is the practice of the Agency to notify each employee at a point in service five years prior to the date of seneduled retirement. I am, therefore, taking this opportunity to advise you that you are scheduled to retire in totober 1975.

- 2. The prospect of retirement from the Agency deserves serious thought and careful planning so that you may make the transition to the next phase of life with purpose and confidence. To assist you in this regard, the Agency." will make available to you various resources which are attuned to the needs of prospective retirees. In October 1970, the Agency will conduct a Retirement Information Seminar to which you will be invited. Your spouse, if you are married, may accompany you to this seminar. Following the seminar, you will be invited by the Retirement Counselor for your Directorate to an individual pre-retirement counseling session (or more than one, if you wish); this phase of retirement planning will be tailored solely to your own particular situation and circumstances and will be within the context of the retirement system under which you will retire. The individual counseling sessions are intended to give you a wide range of information on such matters as estimates of your annuity, survivor benefits, life and health insurance, Social Security taxes, relocation and movement of household effects and assistance in obtaining other employment, if appropriate. In addition to the sessions with your ketirement Counselor, you will be invited to awail yourself of selected literature on all aspects of retirement.
- 3. Some persons who wish to retire voluntarily prior to the scheduled date, or who wish to commence their plausing as early as possible, prefer to work with their Retirement Counselor well before the time he would normally contact them. If you believe you would benefit from such an earlier start on your personal planning, you are invited to contact the Retirement Counselor responsible for your Directorate. He is assigned from your Directorate to the Retirement Affairs Division, 212 Magazine Euflding in Revelyn, on telephone extension 3328.
- 4. Experience has amply demonstrated that careful planning facilitates the transition to retirement. I recommend, strongly, that you avail yourself of the services the Agency offers you in planning your own retirement.

MEMORANDUM FOR : Mr. Robert P. Whoeler

THROUGH

1 Administrative Officer, MPS

SUBJECT

Purchase of Service Credit

- 1. This is to advise you that your application to purchase service credit under the CIA Retirement and Disability System has been processed. The amount of \$437.00 will be required to purchase credit for the period 18 June 1946 through 17 June 1947 when no deductions were withheld from your salary. Under the current provisions of the CIA Retirement System, payment of the above amount will increase your ensuity by approximately 2 per cent of your high-three average salary at the time of retirement. The amount due includes interest to the present date.
- 2. It should be explained that under the CIA Retirement and Disability System, all periods of creditable Federal civilian service during which retirement deductions were not taken from salary must be purchased by making a deposit in order for the time to be counted in the computation of the retirement annuity. Under the Civil Service Retirement System, such periods of Federal service are always creditable in the computation of annuity, but if not purchased, the annuity is reduced by 10 per cent of the amount due. For example, if a deposit of \$1,000 is required to purchase credit for those periods of service during which no deductions were withheld from salary, and it is not paid, the basic annuity would be reduced by \$100 per year. If the deposit of \$1,000 is paid, the retires would have to wait 10 years to recover his own deposit before profiting from the payment.

APPENDING TO THE STATE OF THE S

- 3. The Agency has as an aim legislatively to secure the Civil Service option, i.e., credit for periods of non-deduction service without prior payment therefor, but with reduction of the basic annuity by 10 per cent of the amount due. Therefore, you may wish to consider deforring payment. You should be aware that the interest on the amount due will continue to accumulate at the rate of 3 per cent compounded annually if you decide to defer. For example, if it would take \$1,000 to purchase credit today, the amount due one year later would be \$1,030.
- 4. After consideration of the above options, if you wish to purchase credit for the period of non-deduction service noted in paragraph i, please make your check payable to the Trassurer of the United States and forward it to the Chief, Retirement Operations Branch, 205 Magazine Building. If you prefer, you may make installment payments or arrange for bi-weekly payroll allotments of \$25,00 or multiples thereof. A receipt showing a statement of your account will be sent to you acknowledging each payment.

MEMORANDUM FOR: Secretary, CS Career Service Board

SUBJECT:

Recommendation for Promotion to GS-16, Mr. Robert P. Wheeler

- 1. It is recommended that Mr. Robert P. Wheeler be promoted to GS-16. He has been in grade since December 1957.
- 2. Mr. Wheeler is serving as Deputy Chief of Station, Tokyo. To this post he has brought his depth of knowledge of things Japanese, gained over many years of concentration on this subject. He has also brought his operational ability and his personal capability of operating among significant Japanese leaders. He has been of major value through a most difficult period of very substantial reduction of the station's staff and the termination of many of its functions. While Mr. Wheeler may have spent much of his time on things Japanese, he has also served as Chief, FI, for FE Division in which post he demonstrated his ability to operate on non-Japanese matters with force, intelligence and dispatch.
- 3. For these reasons it is recommended that Mr. Wheeler be promoted to GS-16.

MEMORANDUM FOR: Secretary, CS Career Service Board

SUBJECT:

Recommendation for Promotion to GS-16 -- Mr. Robert P. Wheeler

1. Mr. Wheeler stands Number Four on the Division's list of recommended promotions to GS-16. Mr. Wheeler is 47 years old and has been in grade since December 1957. Most of Mr. Wheeler's Agency career has been devoted to the Japanese scene although he served one tour most commendably as Chief FI for the FE Division. He is now Deputy Chief-of Station, Tokyo, and is an operations officer and executive of the highest quality. In addition to bearing a very large share of the administrative burden of a big station, Mr. Wheeler has acquired a collection of Japanese friends and contacts in important governmental and business circles unequaled, I believe, by any other member of the official American community in Tokyo. Although he has exploited these contacts most effectively for Agency and U.S. Governmental purposes, it is the plan of the FE Division to give freer rein to Mr. Wheeler's operations in this field by avranging, carefully and deliberately, unofficial cover for Mr. Wheeler which will permit him to devote a greater share of his time to the exploitation of this most important section of Japanese society. We believe that his very considerable talents as an administrator can be adequately replaced but that life standing among the Japanese and his capability for operational exploitation of his advantages are unique. I believe that Mr. Wheeler can well be considered to be the prototype of the high ranking staff officer who can forego bureaucratic advancement for a purely operational careerunder deep cover in one area.

 On the basis of his proven ability and past performance as well as his sentority I believe Mr. Wheeler to be fully qualified for promotion to GS-16.

> Desmond Fitz Jerald Chief, Far Rast Division

Wheeler, Robert P. - Recommendation for Promotion from GS-14 to (8-15

1. Mr. Wheeler entered on duty with CIA on 28 September 1952 as a GS-14. He had, previous to that, served in a distinguished manner with the G-2 Section of the Army in Japan in the early days of the occupation. His name was submitted for promotion by the Chief of the Japan Station in November 1955. He entered on duty at Headquarters as Deputy Chief of the Japan Branch in September 1956. In April, 1957 he became Acting Branch Chief and has been zerving in this position in a superior manner. He is 41 years of age and has been in grade with the Acency for He years.

2. A review of Mr. Wheeler's Fitness Reports will adequately reflect his strength and weaknesses, with the possible exception of the most recent one dated 7 July 1956, in which, in the undersigned's opinion, the rating officer did not have adequate time to fairly rate Wr. Wheeler. Granting his occasional tendency to allow his emotions to color his work, he is, nevertheless, one of the hardest working and generally capable officers I have been associated with. He has great ability in dealing with people, he is an accurate and meticulous reporter, and he is adjusting rapidly to the requirements of his job in Headquarters and is turning in a most effective performance. In view of the longth of time in grade, his age, and above all his performance. I strongly recommend Mr. Wheeler for promotion from US-14 to US-15. It is planned in the near future to appoint Mr. Wheeler Chief of the Foreign Intelligence Staff of the FE division, a most responsible GS-15 position.

- The position currently held by incumbent is two-folds as Deputy for KUFI'S and be Chief of Liaison. These two positions will be described separately.
- 2. Deputy KUFIRS, Japan Base

As the title implies, incumbent is Deputy Chief, Japan Base for KUFIRE activities, a position comparable to the Deputies for Administration and KUCOTH activities. As such, incumbent is the responsible officer for the KUNIAS activities of the Japan Base, responsible to the Chief and Deputy Chief of Base. These responsibilities include the originating, planning and supervision of the execution of all Japan Base KONI E activities under the broad supervision of the Chief of Base, guided and directed by KUNRK KUFIRE regulations such as the SOI and the TROD. Incumbent supervises the work of approximately twenty persons ranging in grade from 38-13 to GS-5 and including such persons as the KUTES operations officer, the special projects afficer, the chiefs of the Kurlik sections of the Base. It is incumbent's further responsibility, generally on the initiative of the Deputy for Administration, to handle certain personnel motters for KUFIRE personnel, matters such as efficiency reports, promotion actions, disciplinary actions, etc. Incumbent also represents the Base on all KUFIRE matters, being charged, for amample, with most KUFIRE relations with higher echelons, such as the Sondor Representative, MA, and laterally with KUPIEE elements of adjacent Bases. As one of five Deputies, incumbent assists in setting Base policy; determination of personnel assignments, determination of work assignments, determination of Base operational priorities (again under the guidance and direction of KUBARK Hendquarters), and, generally with the Chief of Base but often on his own responsibility, represents the KURITE associa of the Pase and of KURATE so far as Japan is concerned to ODAMED, ODEREX and ODMITT.

3. Deputy for Lindson, Japan Base (or Chief, Japan Base Lighson)

In this capacity incumbent is charged with taste responsibility for all Japan was liaison activities, in the all Japanese agencies or entitles and other ODEONS Agencies represented in Jeran. Here incumbent is responsible to the Chief of Sees for the origination, planning, supervision and frequently the actual conduct of all Case Liaison, under the broad guidance of FR 52-200. Under incumbent's direct supervision are approximately twenty persons, separate from those mentioned above, who samps in grade from CS-lb to 25-5, including all Each personnel in any form of liminan activity though their basic assignment may well be in one of the operating sections of the Elssien. Deing the Santhe Elaison person of the Base, including all by fauther Elaison person of the Base, included upon to conduct liminar equivities with such persons, on the one hand, as the Deputy Frime Liniator of the hat country, the Sales of Lajor depanese Laverezental departments, high ranking officials of various branches of the host country, and, on the other, with such persons as the Senior COMED rep evantative in the country

and various branch or section hands of the local OBACID establishment, sender military officers of all three services and various branch and soction chiefs of the local military establishments. One segment of these activities involves LAUTCLE matters of high importance. One of the primary direct responsibilities of incumbent is the origination of KUNDEK Liaison with these agencies and of equal disport is the maintenances of good kinison relationships, stepping in where there is potential trouble, where policy decisions have to be said, where new departures in liaison are necessary (such as joint operational activities with other PANO or other ODYONE agencies).

- Le Inherent in both of the current assignments is the planning and review function which are both so necessarily to effective and continued operations. This includes the initiation of PPDF's and review of Whose originated by personnel under the supervision of incumbent; included also is operational review and critical analysis of all NOTION operational and Rase links activities.
- 5. In addition to the above functions and responsibilities, incumbent is also the case officer for one political KUFTHE operation.
- 6. Aside from the above general description of incumbent's duties and responsibilities the following seems portinent: incumbent has been an duty in Japan, with minor interruptions, since September 1965 and in this period, seven years was spent with 6-2 of the command (throughout its many changes). One result of this service has been an uninterrupted limison relationship with many Japanese agencies and more importantly Japanese personalities, while; on the other hand, at the same time there has been a rather unique relationship with the Command and with personnel of the Command (many of the CONNES personnel with whom kindly is now in limited are periods with whom incumbent has marked intirately at some period throughout the pest ten years, asking for a naturalness of relationship that has paid innumerable dividends). In addition incumbent has specialized in things Japanese history, economics, heigeney, and contours and traditions.
- 7. I cartify that the above described duties are true and correct.

SUBJECT: Commendation

- 1. It is a very real pleasure for me to be able to acknowledge the excellent manner in which you carried out your duties as officer in charge of the direct handling of the POCARGO case. You are to be particularly commended on the manner in which you adjusted to a type of operation with which you had never previously been directly concerned, on the personal rapport which you developed with POCARGO and the good judgment displayed in anticipating and dealing with difficult personality problems, and on your understanding of the broad policy problems implicit in this case.

Subject officer is an outstanding addition to KUBARK as a general service staff officer. He has the aggressive sense of urgency so necessary in any position of responsibility together with the necessary qualities of balance, understanding of human nature and sincerity of purpose. He would be an asset to any branch, division or staff of KUBARK home office, and would be capable of assuming almost any responsible position in an overseas post. If he has any weakness at present, it is a lack of experience in covert operations; this can be overcome before the expiration of his present tour.

Type of Report: Annual

Reporting Period: 1 April 1972 - 8 May 1973

During the past reporting period Mr. Wheeler has served his first full year as Chief of the newly-created Nonofficial Cover Affairs Division. He has worked hard and long to improve and simplify the procedures through which we recruit, train, and deploy our nonofficial cover personnel. He has identified accurately the bureaucratic roadblocks that stand in the way of our efficient use of nonofficial cover and if he has not succeeded in removing these barriers he has made some progress. His enthusiasm for the job and his belief that it can be done have been invaluable during a formative period, and his performance on the whole has been a strong one.

Official position title: Ops Officer - Staff Chief

Type of report: Annual

Reporting period: 21 March 1971 - 31 March 1972

During the first part of the reporting period, Mr. Wheeler served as Chief, Missions and Programs Staff, and on 17 January 1972 he assumed his new duties as Chief, Non-Official Cover Affairs Division. As Chief, MPS, Mr. Wheeler effectively supervised the important planning and budgetary functions of that office and under his leadership the Clandestine Service has considerably improved its programming presentations to the 7th floor and, due to the effective staff work and Mr. Wheeler's guidance, the area divisions have been largely relieved of the many questionnaires and interventions with which they were once plagued.

Mr. Wheeler took over his new duties as Chief, NOCAD with enthusiasm and his wide field experience and good relationships with the area divisions should in the future bring about a much more secure and imaginative employment of our non-official

cover personnel. Unfortunately a heart attack during the past year slowed Mr. Wheeler down for a while but he has made a good recovery and his performance on the whole has been very

- 2. Mr. Wheeler's outstanding characteristics are his integrity and total dedication to the continuing upgrading of management within the CS at all levels. By background, interest and training; by service in OPPB; by full-time participation in the Federal Executive Institute; and by his abiding determination to instill others with a similar will for perfection within the CS, he has made a valuable contribution to the Missions and Programs Staff (MPS) and to the Clandestine Services.
- 3. As chief of the Program Review Panel he has chaired the hearings of the various divisions with a great degree of sensitivity and knowledge, and has upgraded the quality and substance of those hearings. He has been especially helpful in those instances where divisions have proposed new approaches, as well as in the development of new and effective management techniques designed to simplify control and to coordinate the activities of headquarters elements and field stations.
- 4. Mr. Wheeler is a natural leader, bright and original. His is a creative mind, and innovative. He is articulate, rational, and thinks and talks sequentially. He has demonstrated clearly his ability to instill enthusiasm and continuing effort on the part of his subordinate officers who, taking their cue from him, are thoughtful, energetic and hard working. - 5. Mr. Wheeler also has the gift of being able to absorb rapidly and commit to paper accurately and quickly, a characteristic and asset of his which has much to commend it,
- 6. He has been a superb deputy, acting in this capacity in my absence. He has excellent recall, is a gifted administrator, and has introduced a number of procedural changes that have increased MPS effectiveness. He has been effective in dealing with OPPB and in participation in the briefings of Office of Management and Budget (OMB) personnel. He is very cost conscious and has made several suggestions resulting in the saving of hundreds of thousands of dollars. Mr. Wheeler has always enthusiastically accepted assignments to panels designed to upgrade the quality of various trouble areas, the latest being the searching look into the nonofficial cover situation within the CS.
- 7. Mr. Wheeler is a searching individual who is totally committed to the Plans Directorate and has the high regard of most of the elements comprising the Clandestine Services.
- 8. As I have previously recommended, I believe Mr. Wheeler would make an outstanding Chief of the Missions and Programs Staff.

MEMORANDUM FOR: Director of Personnel

SUBJECT:

Fitness Report (Annual) -

Robert P. Wheeler

1. In compliance with HR 20-20, this memorandum is submitted in lieu of Fitness Report Form 45 covering the performance of Mr. Wheeler from January 1968 to 31 March 1969.

- 2. In late 1967 it was determined that Mr. Wheeler would be reassigned in June 1968 from the Office of Planning, Programming and Budgeting (OPPE) to the Missions and Programs Staff (MPS). Under an arrangement with the Director of PPB, Mr. Wheeler was lent to MPS on I January 1968 for the purpose of preparing himself to assume the functions of Chief of the Programs Group (PRG) in MPS. Accordingly, what follows covers the period of the loan, from I January to II June 1968, and the period as Chief, PRG, from 12 June 1968 to 31 March 1969.
- 3. From 1 January to 11 June 1958. During the period of Toan to YPS, Mr. Wheeler understudied the then Chief of PRG, acquainted himself with all Group files and responsibilities, attended the Advanced Kanagement (Planning) Seminar and performed numerous ad hoc tasks assigned him by C/MPS. He prepared himself for the new assignment and performed the ad hoc tasks assigned with such dispatch, enthusiasm and intelligence as to augur well for the future. No minor task was too menial; every major task was readily accepted as a challenge. In short, his preparation for the new position soon to be assumed left little to be desired on the part of the Rating Officer.
- 4. From 12 June 1968 to 31 March 1969. As Chief of PRG, Mr. Wheeler is responsible for, inter alia, liaison on non-budgetary matters between the CS and OPPB; installing the Planning, Programming and Budgeting System (PPBS) within the CS: advising and assisting CS components in the preparation of Operating Directives and the program

portions of the annual Operating Program responses; chairing the Program Review Panel; preparing and/or coordinating special studies and surveys on operational programs; and, as required, advising CS components on the requirements of PPBS that need to be addressed in CS documents requiring DCI or Executive Director-Comptroller action.

In carrying out the functions enumerated in paragraph 4, above, Mr. Wheeler has displayed drive, initiative, enthusiasm and understanding. He has pushed within the CS on those concepts of PPBS that are considered applicable to an intelligence organization and has argued with OPPB against forcing the CS to apply those concepts which are not considered to be applicable. He has worked diligently, alone and with the assistance of the DDP/TRO, to spread throughout the CS an understanding of the why and how of PPBS. He has prepared himself well for and has exercised sound judgment and tact in the handling of the chairmanship of the Program Review Panel, on the actions of which he has brought to bear his experiences in OPPB. He has given unstintingly of his time to lecturing at Agency management courses when requested. Although he understands the need for flexibility in the CS, he has to be slowed down at times so anxious is he to make the CS the best managed directorate in the Agency. His sincere interest in good management has made him and the two senior officers he supervises cost conscious. This affable, conscientious, dedicated, highly experienced, intelligent employee, who already has given evidence of a strong performance, is a pleasure to collaborate with and a valuable asset to MPS and the CS.

- 1. In accordance with reference, this memorandum is submitted in lieu of a Fitness Report (Form 45). This is an annual report but in view of Mr. Wheeler's transfer to the Missions and Programs Staff, DD/P, in January 1968, it covers only the period April 1967 through December 1967.
- 2. Mr. Wheeler's assignment as Program Analyst involved:
 (a) reviewing and evaluating Agency activities, principally covert action programs; (b) participating in special in-depth studies of selected Agency activities; (c) preparing the Covert Action Program Memorandum for the Director's approval and submission to the Bureau of the Budget; (d) keeping abreast of Agency plans, programs, and progress toward defined objectives; (e) providing general staff assistance to the Director/PPB in implementing the Agency planning, programming, and budgeting system; and (l) preparing special presentations and correspondence for the Office of the Director.
- 3. During the year, Mr. Wheeler participated in a survey by the Inspector General of Agency proprietary organizations. He contributed significantly to the study. In addition, he was the Office monitor for atleast two studies for the Bureau of the Budget.
- 4. Mr. Wheeler was the principal analyst assigned to the review of the Agency's Covert Action Program. He reviewed Directorate program plans and proposals, identified issues to be raised with the Director, and prepared a Program Memorandum for the Director's approval which presented Agency Covert Action plans and programs for the next five years.

- 5. Mr. Wheeler's long operational experience, extensive contacts throughout the Agency, and exceptional writing ability have contributed to the realistic appraisal of programs and plans and to their effective presentation to the Director and to the Bureau of the Budget. Mr. Wheeler is effective in dealing with other elements of the Agency and has contributed useful suggestions for improving operations and analysis. In summary, Mr. Wheeler made a significant contribution while in the Office. In view of the similarity in functions between the two organizations, I would expect this contribution to be carried forward to his new assignment.
- I rate Mr. Wheeler's over-all performance during the period as Strong.
 - 7. Mr. Wheeler had no supervisory responsibilities.
- 8. This report was not shown to Mr. Wheeler because of his earlier transfer to another Agency component.

- 2. Mr. Wheeler's assignment as Program Analyst involves:

- 3. Mr. Wheeler has many years of experience in clandestine operations and administration, both at Headquarters and in the field. This experience has proven to be of great value to this Office in assessing Agency activities. He has enthusiastically supported the development of a system adapted to Agency needs and has made significant contributions toward this end.
- 4. Currently, Mr. Wheeler is participating in three studies of Agency activities: an Inspector General survey of Agency proprietary organizations and two studies which were requested by the Bureau of the Budget--Agency use of communications media for political-psychological programs and Agency air capabilities at two selected facilities. - 1. During the past year it has clearly emerged that the Honolulu area offers very limited opportunities for CS operational action. The main target of a Honolulu base, as originally conceived by FE Division, was the East-West Center with its conceived by FE Division, was the East-West Center with its large number of Asian students. Although, during the 1964-65 academic year several prospective candidates for the WUENVOY program were assessed and one recruited, political developments in Southeast Asia prevented the arrival of any students at the Center from the priority Southeast Asian countries: Burma, Cambodia, Indonesia.
- 2. It is against this perspective that Subject's performance during the past year should be evaluated. He approached his job with enthusiasm and vigor but soon found that there were no tangible operational activities he could devote himself or his supporting agents to. He has been frank to state officially and unofficially the absence of any targets to which an operational base could direct itself and has therefore been relatively unoccupied during this period except for an occasional item of local coordination or follow-up on a headquarters task. Subject has had under his direct supervision a long-term Staff Agent at the University of Hawaii and two Staff Agents assigned to the

University as students for the current academic year. He has handled them well and has done his best to maintain their morale in spite of the fact that there were only a few specific targets on whom they could systematically work.

- 3. Subject is a mature, experienced and energetic officer with both operational and scholarly interests in Far Eastern, especially Japanese, affairs. His talents are obviously being wasted in Honolulu and arrangements have already been made to have him reassigned. The base itself will be phased down in the summer of 1966 with two of the three Staff Agents reassigned, the long-term Staff Agent kept on at the University, and a more junior officer replacing Subject as COB.
 - Subject has displayed an economical approach to the use both of funds and personnel.
- 5. In view of the limitations, outside his control, on operational activities in Honolulu, Subject's performance has been more than satisfactory and is rated as proficient.

Annual Report For the Period 1 April 1963 - 31 March 1964

In preparing this memorandum in lieu of submitting Fitness Report Form 45, I can only set forth my yearly reiteration that ... Subject well-experienced, well-motivated, high caliber KUBARK officer who has been in his present grade, 08-15, since 1957. His high standard of contribution to the Station as its Deputy Chief of Station continues unfailingly. Tokyo Station operations encompass a broad spectrum of internal and external targets emphasizing denied area operations. To keep on top of this activity it needs a man of energy backed up by sound operational knowledge and Subject has carried this job capably and with a will: I would certainly grade him "S" in performance evaluation.

Tokyo Station is widely dispersed and I have urged Subject on several occasions to get out to the various operational elements in an attempt to get closer to and stimulate the working case officers. After one or two starts he has not kept this up on a continuing basis, remaining at his Embassy deak and invariably working through the individual branch chiefs. I am convinced more offort on his part in this field could have resulted in more yield to the Station from his long area and operations experience.

actively participates in the operational review and budget preparation of the Station and has shown a definite cost consciousness. Subject

Subject's long tenure in Japan and experience with things Japanese are well-known and the pro's and con's of the value of an officer remaining in one area for the major portion of his time with KUBARK (possibly to the detriment of his career) have been discussed to a sufficient degree as to rule out further reference in this memorandum. Subjectia scheduled to leave the Japon Station and enter an assignment where his operational talents will be of great value.

In any considerations concerning Subject being conducted by any personnel board or by any official of the Agency interested in KUMARK personnel, the significant points are Subjectis a deeply motivated, highly capable officer who has been in his current grade too long.

MEMORANDUM IN LIEU OF FITNESS REPORT FOR PERIOD:

9 October 1962 - 31 March 1963

Robert P. Wheeler

A review of the file reflects that has been constantly rated as a well-motivated, superior efficer always willing to spend the "extra effort" by a variety of supervisors. During the rating period there has been no diminution in the caliber of professionalism or in the time and effort this man has contributed to the work of the Tokyo Station. He is a distinct asset. Over and above his drive and professionalism, brings to the Station a full background concerning intelligence activities having been associated with such activities in Japan for the last seventeen years, either with the military or as a member of the Agency. All of this time he has been in Japan except for a period of almost three years in Washington.

has a proficiency in the Japanese language and due to his long tenure in Japan has contacts at a variety of levels.

In sum, the Agency has in ____ a superior officer with long background and continuity in Japan, who can and is making a highly significant contribution to the Agency's objectives in Japan.

The above has stressed solely sability to contribute to KUZARK objectives in Japan. However, there is no doubt in the rater's mind that could perform in a superior manner no matter to what geographical area he was assigned.

MEMORANDUM FOR: Director of Personnel

SUBJECT:

Fitness Report - Robert P. Wheeler

1. Chief of Station, Tokyo was requested to forward a memorandum, in lieu of Fitness Report Form 45, on Mr. Robert P. Wheeler, Deputy Chief of Station, Tokyo to cover the period April 1961 to October 1962. His comments are as stated below:

Mr. Wheeler is a superior operations officer of wide scope, experience and imagination. He has over a period of years been highly successful in a variety of supervisory roles both operational and staff. In addition to these attributes he has unique qualifications of an extensive, continuous operational span of time in Japan, Japanese contacts at a variety of levels and proficiency in the Japanese language. Because of these latter aspects of his ability, he is able to contribute extensively to Tokyo Station and CIA operational objectives.

2. I concur with the above.

Desmond FitzGgrald Chief, Far East Division

Subject is a superior officer in every important respect. He is intelligent, imaginative, resourceful and has balanced judgment. He understands administrative procedures and knows how to fink them work. As a supervisor, he is firm and fair, and achieves the respect of his subordinates. As a subordinate, he is unfailingly loyal and helpful. He has a good overall grasp of the intelligence business and maintains a healthy attitude of common sense with respect to operations. He is especially useful in Japan, because of his great knowledge of and long experience with Japanese affairs, personalities and psychology, yet I consider he would be a superior officer and supervisor in any other context. His personal character is of the best.

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS 8, C, and D to provide the best basis for determining future poisonnel actions.

This is the first Fitness Report made by Rating Officer on Subject since the latter assumed duties as Deputy for Operations, Tokyo Station. He has worked out extremely well in this role. He is intelligent, energetic, hard-working and faultlessly loyal. He pays attention to detail while remaining mindful of larger considerations. He is effective as a supervisor and commands the willing allegiance of his subordinates. He has excellent judgment in both administrative and operational matters. Because of his extensive background in Japan, his knowledge of things and people Japanese and his fair-to-good command of the language, he is particularly well suited for his present position. However, he would be an asset to any station or element of Headquarters in a high supervisory position.

This report has been prepared in accordance with F.E. Division standards which recognize the principle of rating the individual against the group. Thus an 'average' rating reflects an entirely satisfactory performance.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB RERFORMANCE

Strens strengths and weaknesses demanstrated in current position. Indicate suggestions made to apply a differ improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development addition defining greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for detarmining future personnel actions.

Subject is a well-seasoned, imaginative operations officer, who is extremely practical in his approach to operational situations. He is especially fine in his dealings with people whether superiors or subordinates. He did an excellent job as a member of the FE Division Staff in improving and expediting the FI and CI activities of the Division. Subject has an excellent background in all things Japanese and is extremely adept at building rapport with his Japanese counterparts.

He has the capacity to handle large volumes of work which many times leads him afield into activities that are not within his purview. His personality however allows him to do this without alienating others.

This report has been proposed in accordance with FE Division standards which recognize the principle of rating the individual against the group. Thus an "everage" rating-reflects an entirely solisfactory parlamence.

MEMORANDUM FOR THE RECORD

SUBJECT: Fitness Report on Robert P. WHEELER

- 1. The attached Fitness Report should be read with the following facts in mind. The Rating Officer arrived in the Japan Station on 21 January 1956. Mr. Wheeler left Japan on or about 19 March 1956 and was in the United States on TDY until 8 May 1956. From 8 May until he left Japan PCS on 7 June 1956, Mr. Wheeler was unassigned in the Japan Station. While the Rating Officer was Chief of Operations, Japan Station, Mr. Wheeler was in his assigned position simultaneously for less than one month and it is my understanding Mr. Wheeler did not report to Mr. Hecksher, but directly to the Chief of Station.
- 2. I question, therefore, whether Mr. wheeler was under the Rating Officer's direct supervision for a sufficient period of time to insure that the attached report is a completely equable one. Inasmuch as the Chief of Station reviewed this report and made no comment, I am in no position to take issue with it, but suggest that it be viewed in the context of other Fitness Reports on Mr. Wheeler.

### ATTACHEEVE TO FIELD REASSIGNMENT QUESTIONNAIRE:

Re Paragraph C - Preference for Next Assignment:

- 1. I would like to state that while a tour at Headquarters should be my preference I believe that for me to leave my current assignment at this time for even one year would not be in the best interests of either KURKEK or CDYOKE. Therefore, I request home leave, with approximately one month at Headquarters for requested training and refresher work and one month of leave, returning to current assignment for at least an additional two-year tour with the provise that after the first year the situation be re-examined with the ultimate view of possibly at that point considering a two-year tour at Headquarters.
- 2. In my years in work on Japan, approximately ten of which have been spent consecutively in Japan, I feel that I have been able to provide a certain degree of intelligence continuity which could be speiled by a two-year break. Realizing that career-wise I should spend at least one tour at Headquarters in the future, I believe that, despite possible reflections against my career, that two year period should be delayed until (a) KUBARK is better established in Japan and (b) the Japanese governmental and economic situations are on more stable grounds. I believe that I can play a major role in both those situations, not because I have any special talent to offer out simply because I have the continuity which KUBARK as such lacks in Japan.
- 3. I believe that by experience, training and inclination. I can better serve KURARK in this country in the type of work in which I am now engaged than by any other assignment currently known to re.

Robert J. Kunderling Officer
Robert J. KNDALL

(If Reviewing Officer of Chief of Station deer not commun with this report, exceptions will be stated in space provided below)

COMPRESSION

- 1. While the Reviewing Officer concurs generally with statements made in this report, it is felt that the over-all impression does not give Subject as much credit as he deserves. In the opinion of the Reviewing Officer, Subject's faults are somewhat ever-emphasized. Subject's qualities as exhibited during past months have preven to be outstanding, particularly in his excellent judgment in arriving at logical and workable solutions and in his stability under operational exigencies in which Subject has performed exceedingly well under heavy pressures of both time and responsibility.
- 2. Working in an area where, in the past, there has been an unfortunate number of misunderstandings between KUFIUS and KUGCAN components, and where there have been the usual difficult personality conflicts. Subject has exhibited not only superior tact and diplomacy, but has also been able to smooth out many difficulties, and modify aggressively offensive actions. He has supplied a needed cooperative spirit and sense of humor to prevent, in many cases, serious antagonisms and unnecessary vitualization so detrimental to a smooth working organization. Subject's contribution to tringing about a friendly, cooperative relationship within the mission and with outside agencies including U.S. military organizations cannot be praised too highly.
